Used to stop machine immediately during emergency situations.</td></tr></table>	No.	Keys Display Name	Description	①	POWER	Used to turn on / turn off machine.	②	LENGTH	Where length is set, adjusted and shown.	③	COUNTER	Where the desired quantity is set. Also shows actual quantity cut during machine run.	④	SPEED	Where machine feeding speed is set, adjusted and displayed.	⑤	SET	Used to move automatically to the next key. (Length - Counter - Set)	⑥	CURSOR ➡ ⬆	Used to adjust values set on the Length, Counter and Speed buttons. (➡ move to next digit, ⬆ increase or decrease numerical values.)	⑦	CLEAR	Used to clear values set on the Length, Counter and Speed buttons.	⑧	ENTER	Used to save the values set per key. (Length, Counter and Speed buttons.)	⑨	MEMORY	Used to save set up parameters.	⑩	FEED	Used to manually feed tube.	⑪	CUT	Used to manually cut tube. Also used to check movement of knife(blade).	⑫	START	Used to start machine operation.	⑬	STOP	Used to stop machine operation.	⑭	EMRG.	Emergency button. Used to stop machine immediately during emergency situations.	
No.	Keys Display Name	Description																																													
①	POWER	Used to turn on / turn off machine.																																													
②	LENGTH	Where length is set, adjusted and shown.																																													
③	COUNTER	Where the desired quantity is set. Also shows actual quantity cut during machine run.																																													
④	SPEED	Where machine feeding speed is set, adjusted and displayed.																																													
⑤	SET	Used to move automatically to the next key. (Length - Counter - Set)																																													
⑥	CURSOR ➡ ⬆	Used to adjust values set on the Length, Counter and Speed buttons. (➡ move to next digit, ⬆ increase or decrease numerical values.)																																													
⑦	CLEAR	Used to clear values set on the Length, Counter and Speed buttons.																																													
⑧	ENTER	Used to save the values set per key. (Length, Counter and Speed buttons.)																																													
⑨	MEMORY	Used to save set up parameters.																																													
⑩	FEED	Used to manually feed tube.																																													
⑪	CUT	Used to manually cut tube. Also used to check movement of knife(blade).																																													
⑫	START	Used to start machine operation.																																													
⑬	STOP	Used to stop machine operation.																																													
⑭	EMRG.	Emergency button. Used to stop machine immediately during emergency situations.
